Coherence of Research Question and Analysis

Added by Hedieh Najafi, last edited by Hedieh Najafi on Jan 09, 2014 (view change)

Hedieh's note: Here, I am first creating a map that shows the linkage between research objectives, res that we would use.

Red font color means questions or things that I will have to double check with team members or my no

- Research goals from the proposal:
- Research Questions:
- Data Sources for Each Question and Data Analysis
 - Research Question 1:
 - Research Question 2:
 - Research Question 3:
 - Research Question 2:

Data Wrangling

```
store = pd.HDFStore("/Users/Stian/src/clickpy/mentalhealth_002.h5")

In [5]: store2 = pd.HDFStore("/tmp/mentalhealth_002.h5", complib="zlib", complevel=9)

In [6]: db=store['db']
store2['db'] = db
store2.close()

In [65]: lec5 = db[db.lecture_id == 51]

In [66]: lec5['timestamp'] = pd.to_datetime(lec5.timestamp)

In [67]: lec5.set_index(pd.DatetimeIndex(lec5.timestamp), inplace=True)
```

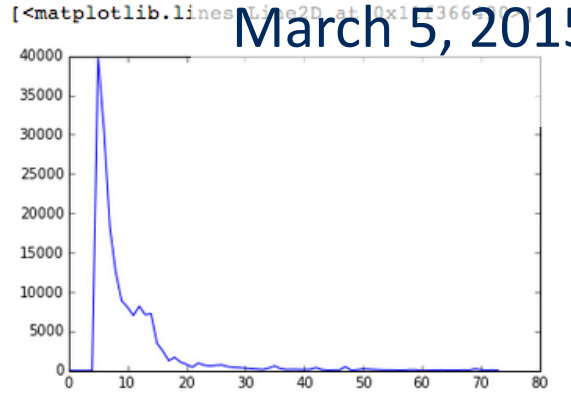

Categorizing video views

```
In [68]: lecnorm = lec5[lec5.playbackRate == 1]
lecfast = lec5[lec5.action.view == 1]
norm=lecnorm.action.view.resample("D", how="count")
fast=lecfast.action.view.resample("D", how="count")
tot=lecnorm.action.view.resample("D", how="count")
```

Video views

This is how we find everyone watching the video by day

```
In [69]: plot(lec5.action.view.resample("D", how="count"))
```

R: Group Averages Over Level Combinations of Factors

ave (stats) R Documentation

Group Averages Over Level Combinations of Factors

Description

Subsets of x[] are averaged, where each subset consist of those observations with the same factor levels.

Usage

```
ave(x, ..., FUN = mean)
```

Arguments

- x A numeric.
- ... Grouping variables, typically factors, all of the same length as x.
- FUN Function to apply for each factor level combination.

Value

A numeric vector savy of length length(x). If is a1, a2, a3, ..., aL is equal to

Environment History Files Plots Packages

```
3 Q-0 <style> .matrix_question td, .matrix_question th { text-align: center; } </style> <script> function eval_matrix(
question_id, matrix_options) { // Concat the values from the groups var result = ''; for(var opt in matrix_options) {
result = result + $('input:radio[name='+question_id+'_g'+opt+']:checked').val() + '|'; } $('[name="answer['+question_id+']["
answer]"]').val(result); } function setup_matrix_question(question_id, matrix_options, matrix_headings) { $('["
name="answer['+question_id+']["display"]"]').before( '<table class="matrix_question table"> \ <thead> \ <tr
id="'+question_id+'_head"> \ <th></th> \ </tr> \ </thead> \ <tbody id="'+question_id+'_body"> \ </tbody> \ </table>' ) .
hide(); var $qhead = $('#'+question_id+'_head'); for(var opt in matrix_headings) { $qlabel = $('<th />').text(
matrix_headings[opt]); $qhead.append($qlabel); } var $qbody = $('#'+question_id+'_body'); for(var opt in matrix_options) {
$qrow = $('<tr />'); $qrow.append($('<td />').css('text-align', 'left').text(matrix_options[opt])); } // Hook on form submit $('#q
question_id, matrix_options); return true; }); // =====
addEventListener('load', function() { setup_matrix_question( 'matrix_q1', [ 'For the amount of time I invested in this
course, I\'m happy with what I learned', 'The course materials were presented in an engaging manner', 'I would like to take
a more advanced course in this topic', 'I learned what I was hoping to learn in this course', 'I will use what I learned in
this course in my job', 'The course increased my interest in Psychology', 'I see the value in Psychology', 'I think
knowledge of Psychology is important in everyday life' ], [ 'Strongly Disagree', 'Disagree', 'Neutral', 'Agree', 'Strongly
Agree', ] ); }); </script> If you did complete a fair amount of the course, please answer any of the following questions
that apply. If a question asks about something you didn't do, just skip it. To begin: Please indicate your level of
agreement with the following statements:
4 Q-1 On average, how many hours per week did you dedicate to this course?
5 Q-2 <script> window.addEventListener('load', function() { setup_matrix_question( 'matrix_q2', [ 'a. Lecture videos', 'b. In
-video Quizzes', 'c. Exercises', 'd. Assignments', 'e. Completing Peer-Evaluations', 'f. Feedback from Peer Evaluations',
'g. Community Building and Discussions', ], [ 'Not at all useful', 'Somewhat useful', 'Neutral', 'Useful', 'Very useful', ]
); }); </script> Rate the value of each of the following components of the course.
6 Q-3 How would you rate the pacing of this course?
7 Q-4 How would you rate the difficulty of this course?
8 Q-5 How would you rate the length of this course?
9 Q-6 Which of the following did you use or consult during the course? (Check all that apply)
10 Q-7 In terms of what parts of the course you did (and why) which of the following statements fits you best?
11 Q-8 We're interested in how you space out (or not) the timing of when you watch the lectures. Which of the following
statements comes closest to describing you?
12 Q-9 We're also interested in how you watched the lectures. Which of the following best describes your typical way of
watching lectures.
13 Q-10 Of course I felt the need to try out some of our assessment technologies in this class to see how they would work
in a MOOC context, so I'd love your reaction to that. Let's start with Digital Labcoat. Assuming you tried it, which of the
following statements best reflects your experience with Digital Labcoat.
14 Q-11 OK, now mTuner. mTuner is interesting because we could have just used the multiple-choice assessment tool within
Coursera but we really want to use ours ... partly because it is our little creation, but mostly to get the reaction from
learners like you who were in a good position to compare it to other assessment types. So I'd like to ask a few questions
related to mTuner. Here goes ... First of all, clearly one purpose of mTuner assessments is to assess how well you learned
the course material. With this purpose in mind, which of the following do you most agree with?
15 Q-12 In addition, another goal of mTuner activities is to promote deeper learning during the assessment process. We're
curious to know if you feel we achieved that goal. So with this in mind, which of the following statements do you most
agree with?
16 Q-13 OK, now peerScholar. We hope peerScholar helps you learn in many different ways, but I'll focus on two things here;
communication and thinking. First with respect to communication. In peerScholar you had to write an original composition,
then you had to read the work of others and comment on it, then you got to see the comments that people gave to your work.

Q-0	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	0.00	
Q-0	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	0.00	4 4 5 4 4 5 4 4
Q-1	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	4 - 6
Q-2	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	0.00	
Q-2	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	0.00	5 4 2 4 3 3 3
Q-3	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	0.00	Slightly too fast
Q-4	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	Slightly too difficult
Q-5	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	Slightly too long
Q-7	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	Initially I only planned to watch the lectures, but at some point I decided to also take part in the other assessments and activities.
Q-8	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	When the lectures become available I will often watch 2 or 3 at a time, then take a break.
Q-9	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	I sat in front of the computer and watched the lectures without any other distractions.
Q-10	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	I enjoyed doing it, but didn't feel I learned much.
Q-11	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	mTuner was a little more complicated to understand at first, but eventually I did think it was better than the normal Coursera multiple-choice test. That is, I think it provided a better assessment of what I learned.
Q-12	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	OK, maybe I wouldn't learn more doing a typical multiple-choice test, but I don't think the mTuner was really much better than a typical multiple-choice test in terms of promoting learning.
Q-13	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	Honestly, I don't think it had much effect on my abilities to write or understand English. I didn't feel I learned much at all.
Q-14	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	Yes I was thinking a lot, but mostly when I wrote my own piece, not so much during the assessment of the reflection phases.
Q-15	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	I really didn't see much of a difference that mattered.
Q-16	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	Good
Q-17	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	I feel pretty neutral about this. It did give us a sense of who you are, but other than that I didn't really see it as all that relevant or useful. But it wasn't offensive either.
Q-18	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	1.00	You talking about this did get me to think about it at least a little more deeply than I have previously. I didn't think that much about it, but I am a little more aware of some of the issues.
Q-19	[01]	Sun	7	Jul	2013	2:02	PM	UTC	(UTC +0000)	0.00
